## OBJECTIVE

To secure an internship position where I can apply my programming knowledge, especially in Python and projects, while gaining hands on experience, improving my technical skills, and contributing to meaningful real world solutions in a collaborative environment.

## EDUCATION

- **RADHABAI KHEDEKAR VIDYALAYA, CHIKHALI** 2022  
SSC  
**94%**
- **SHAHAJI RAJE JUNIOR COLLEGE ,UNDRI** 2024  
HSC  
**83.67%**
- **MET'S INSTITUTE OF ENGINEERING,NASHIK**  
Bachelor of Engineering  
**Currently pursuing**

## SKILLS

- Problem solving and analytical skills
- Python Programming
- Programming Fundamentals
- Knowledge of SQL
- Tech carrier Skills
- Effective Leadership
- Excellent communication skills and Teamwork skills

## PROJECTS

### • Voice Enabled AI Assistant

Developed a python based voice assistant bot that processes spoken user commands, answers queries and perform tasks by integrating speech recognition with OpenAI API for intelligent natural language responses.

### • Human Like WhatsApp Chatbot

Built an intelligent chatbot in python that engages in human like conversations on WhatsApp by leveraging the WhatsApp web interface and OpenAI's GPT API to understand and respond to the user queries in real time.

## CERTIFICATIONS

- Crash course on python by GOOGLE
- Career Essentials in Software Development by Microsoft and LinkedIn
- SQL Basics Course by Newton School
- Effective Leadership by HP LIFE
- Programming Foundations: Fundamentals

## LANGUAGE

- English
- Hindi
- Marathi

## INTERESTS

- Reading psychology and Philosophy Books
- Reading tech news
